Coffee roasting

Three machines with 2, 5 and 10 kg drums, plus an automatic line that runs from roasting to packaging.

GMS K2 Coffee Roasting Machine

Coffee roaster with a 2 kg drum. Roasts 6 kg per hour.

Energy type	Electric	Automation system	Schneider / Delta
Drum capacity	2 kg*	Total power	3.5 kW
Hourly capacity	6 kg/h	Motor brands	Gamak, Watt, Inter, Volt
Drum speed	20–50 Hz*	Dimensions (W / L / H)	70 / 70 / 1.15*
Operation	Continuous		
Weight	150 kg		
Voltage	380 V		

GMS K5 Coffee Roasting Machine

Coffee roaster with a 5 kg drum. Roasts 15 kg per hour.

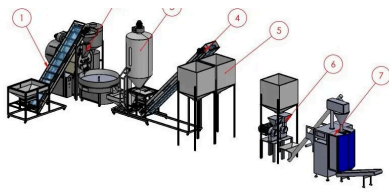

Energy type	Electric or gas	LPG consumption	1.5–3 kg/h
Drum capacity	5 kg	Electricity consumption	15 kW*
Hourly capacity	15 kg/h	Motor brands	Gamak, Watt, Inter, Volt
Drum speed	20–60 Hz	Number of motors	4
Operation	Continuous	Product contact surfaces	304 grade stainless steel
Weight	250 kg	Control	Touch screen
Voltage	380 / 220 V	Dimensions (W / L / H)	1.65 / 1.50 / 1.15*
Automation system	Schneider / Delta		
Total power	2.5 kW*		

GMS K10 Coffee Roasting Machine

Coffee roaster with a 10 kg drum. Roasts 30 kg per hour.

Energy type	Electric or gas	Total power	5.5 kW
Drum capacity	10 kg	Motor brands	Gamak, Watt, Inter, Volt
Hourly capacity	30 kg/h	Number of motors	4
Drum speed	20–60 Hz*	Product contact surfaces	304 grade stainless steel
Operation	Continuous	Control	PLC display*
Weight	320 kg	Dimensions (W / L / H)	1.80 / 1.70 / 1.25*
Voltage	380 V		
Automation system	Schneider / Delta		

Automatic Coffee Roasting and Packaging Line

A seven-station automatic coffee line, from roasting to packaging.

Technical data for this model is being prepared. Request a quote for current figures.

Coffee grinders

Two electric grinders, rated at 25 and 150 kg per hour.

GMS G25 Coffee Grinder

Electric coffee grinder rated at 25 kg per hour.

Energy type	Electric	Weight	80 kg
Hourly capacity	25 kg/h	Voltage	220–380 V
Hopper capacity	5 kg*	Motor brands	Gamak, Watt, Inter, Volt, ELK
Operation	Continuous		

G150

GMS G150 Coffee Grinder

Electric coffee grinder rated at 150 kg per hour.

Energy type	Electric	Weight	130 kg
Hourly capacity	150 kg/h	Voltage	380 V
Hopper capacity	50 kg*	Total power	7.5 kW
Operation	Continuous	Motor brands	Gamak, Watt, Inter, Volt, ELK

Nut roasting

Six models, from the Nuts 15 to the Nuts 700/1000.

GMS Nuts 15 Nut Roasting Machine

Nut roasting machine.

Technical data for this model is being prepared. Request a quote for current figures.

GMS Nuts 50 Nut Roasting Machine

Nut roasting machine.

Technical data for this model is being prepared. Request a quote for current figures.

GMS Nuts 100 Nut Roasting Machine

Nut roasting machine.

Technical data for this model is being prepared. Request a quote for current figures.

GMS Nuts 200 Nut Roasting Machine

Nut roasting machine.

Technical data for this model is being prepared. Request a quote for current figures.

GMS Nuts 500 Nut Roasting Machine

Nut roasting machine.

Technical data for this model is being prepared. Request a quote for current figures.

Nuts 700/1000

GMS Nuts 700/1000 Nut Roasting Machine

Nut roasting machine.

Technical data for this model is being prepared. Request a quote for current figures.

* Marked values can vary with the model and equipment; they are confirmed with the quote.
